## BTI White Paper Published by CIO.COM

Accent Global's white paper discussing how to bridge the business/IT Divide by implementing Business and Technology Integration (BTI) has been published on CIO.com and Meritalk.com.

The White Paper entitled "Closing the Business/IT Divide...the Urgency of a Unified Gameplan", authored by Shane Aubel. It addresses the communication problems with IT projects and how to address them to improve success rates.

CIO magazine addresses issues vital to the success of chief information officers (CIOs) worldwide. The CIO portfolio includes a companion web site, [www.CIO.com](http://www.CIO.com), CIO Executive Programs, CIO Custom Media and the CIO Executive Council. They provide technology and business leaders with analysis and insight on information technology trends and a keen understanding of IT's role in achieving business goals.

Meritalk.com is an online community at the axis of IT and public policy. The website is designed to mix new faces, new voices, and fresh perspectives from government IT, industry and policy leaders. Conceived by the government community, MeriTalk partners include the Coalition of

Exposition took place at the Constellation Centre. This location houses over 300 Procurement and Acquisition personnel for the IRS. All IRS Contracting Officers and Technical Representatives were invited to attend. The IT Expo featured numerous products and services from vendors supporting the IRS mission. Donna James, and Shane Aibel (AGSA Partners) presented our BTI line of services and the Accent Global System Blueprint. Visit our website to review our provided services and GSA schedule.

## Virtualization Forum 2008

Accent Global participated in the Virtualization Forum 2008 Conference, held at the Washington DC convention.

The Forum is the most important regional virtualization event of the year, designed to help you learn about the benefits of implementing a virtual infrastructure.

Key themes of the Forum were:

1. Consider your virtualization projects as an architecture redesign.
2. Virtualization projects should "Think Big" in their design and objectives.
3. To improve success of your virtualization projects, integrate participation from both the business and technology stakeholders.

Upcoming articles/white papers from Accent Global will address how Business and Technology Integration (BTI) greatly enhances virtualization implementation strategies.

Learn more about our Business and Technology Integration services by visiting our website ([www.accentglobal-llc.com](http://www.accentglobal-llc.com)). If you have a question about our services please contact [diasley@accentglobal-llc.com](mailto:diasley@accentglobal-llc.com).
